Sample Text		
Always in our Hearts	Gone, but not forgotten	You left paw prints on our hearts
Devoted Companion	So small, so sweet, so soon	My Faithful Buddy
Always by my side	Champion of Champions	In Loving Memory
Remembering a tiny angel	Here lies my faithful friend	Treasured memories
The moon will rise. The sun will set. You, my pet, I will never forget.	Gone, but not forgotten. Although we are apart, Your spirit lives within me, Forever in my heart.	Our hearts still ache in sadness, And secret tears still flow. What it meant to lose you No one will ever know.

## Terms and Agreements

### Copyright Material:

Please only send photos or artwork you have the rights to. We will not use any copyright material without written permission from the copyright holder. By submitting an image, you are stating you have the rights to the image and are giving us permission to reproduce it for your use. The purchaser agrees to assume any liability resulting from actions or demands brought against the supplier for any copyright infringements.

### Photos:

Although we use a state-of-the-art laser process, the final product will only look as good as the photo submitted. The best photo to submit is one that you treasure as having special meaning to you. If you cannot see the edges of objects or individuals clearly in the actual photograph, they will be even less visible in a grayscale image created by the laser. When submitting your photo through email, you will receive an emailed proof of what your stone will look like for your approval. Proofs can only be sent to your email address. Customers who do not provide an email address will not receive a proof of the memorial. The stone will be mailed to you 7-10 business days after your final approval, if applicable.

### Resolution & Photo size:

You may scan your photo and send it in an email or mail us the original. We accept JPEG, Bitmap, Photoshop, and TIFF files. If you decide to scan your photo, we recommend scanning at a minimum of 300 DPI. Please do not enlarge or increase the resolution, as this will distort the image. Try to choose a photo image that does not have a textured paper, as the scanner will likely pick the texture up during the scan. Only scan an original photograph. Copies are not as clear and will not produce the best end result.

### Mailing tips:

If you decide to mail the photo, make sure you do not send us any valuable, irreplaceable, or otherwise one-of-a-kind images. We cannot be held liable for the condition of any images that are sent to us, returned from us, or lost in mailing. We strongly suggest that you package your photo either in a proper photo-mail envelope or between two pieces of cardboard. Your photo will be returned with your stone.
